VALIXIS STUDIO · BATTLE-TESTED COLD CALLING & CLOSING PLAYBOOK

The Founder's Exact Word-for-Word Script, Tough Objection Q&A;, and Accessible Pricing Architecture

---

■ **THE 3 GOLDEN RULES OF COLD CALLING:**
1. **Never Ask 'Is this a good time?':** It invites an immediate 'No'. Instead say: *'Hi [Name], I know I caught you out of the blue—do you have 30 seconds for me to tell you why I called, and you can tell me if it's relevant?'*
2. **Never Pitch Buying on the Call:** You are NOT selling an expensive contract on phone call #1. You are only selling a **60-second video demo over WhatsApp** or a **10-minute preview**.
3. **Keep Your Tone Calm & Relaxed:** Don't sound like a desperate telemarketer. Speak slowly, confidently, like a friendly peer founder calling another business owner.

1. THE UNIVERSAL 3-STEP COLD CALL SCRIPT (30 SECONDS)

Step 1: Pattern Interrupt Opening
'Hi [Owner/Manager Name], Subhash here from VALIXIS. I know I caught you in the middle of a busy day—do you have 30 seconds for me to share why I'm calling, and then you decide if we should chat?'
→ 90% of owners will say: 'Sure, what is this regarding?'

Step 2: The Core Pain & Solution Hook (Choose your vertical):
• **FOR CAFES & RESTAURANTS:** *'We build custom 1-click web takeaway & ordering portals with direct UPI payments for cafes in [City]. It lets your regular dine-in and takeaway customers order directly to your phone/counter, saving the 20% to 25% commission Swiggy & Zomato take on every order.'*
• **FOR CLINICS (DENTAL & SKIN):** *'We build automated 24/7 patient booking portals for premier clinics that connect directly to WhatsApp. It lets patients book appointments after-hours from your Instagram or Google profile, and sends instant automated reminders that cut clinic no-shows by 40%.'*
• **FOR TECH AGENCIES & STARTUPS:** *'We run a 7-member dedicated engineering pod. Many founders partner with us as their external dev team to ship MVP features, Next.js web portals, or Flutter apps in 30–45 days without burning 3 months and high recruiting costs hiring in-house devs.'*

Step 3: The Zero-Pressure Close (Selling the Next Step):
'I know you're busy today. Could I just shoot over a 60-second video preview to your WhatsApp showing exactly how this would look with [Business Name] branding? What's the best WhatsApp number to send it to?'
Outcome: You get their direct personal WhatsApp number, drop the demo & portfolio link, and follow up!

2. TOUGH PROSPECT QUESTIONS & EXACT WINNING ANSWERS (Q&A;)

Q1: 'How much does this cost?'	**YOUR WINNING ANSWER:** *'We designed this specifically to be a no-brainer for local brands. A complete 1-click direct ordering portal or 24/7 WhatsApp booking bot is just a one-time setup starting at ■9,999 (under ■10k)—with zero monthly commission fees. If it saves you even 10 delivery orders a month, it pays for itself in 30 days. Let me send you the preview so you can see the value first.'*
Q2: 'We already use Swiggy / Zomato / Practo. Why do we need this?'	**YOUR WINNING ANSWER:** *'Swiggy and Practo are great for acquiring random strangers. But for your loyal regulars who already love your food or treatments, why pay 25% to 30% of your margin on every repeat order? Our portal gives your regulars a direct 1-click link to order or book from you directly via UPI, keeping 100% of the money in your bank account.'*

Q3: 'Can you just send me an email or brochure?'	**YOUR WINNING ANSWER:** *'I definitely can! But emails usually get lost in spam or busy inboxes. If it's easier, I can text you our 60-second video demo and live documentation link directly on WhatsApp right now. Is this number on WhatsApp, or is there another number you check?'*
Q4: 'We already have a website or an IT agency handling this.'	**YOUR WINNING ANSWER:** *'That's great! Most standard websites are just digital brochures that look nice but don't actually process 1-click UPI orders or automated WhatsApp confirmations. We don't replace your main website—we simply plug in a lightweight, high-speed ordering or booking button into your existing site or Instagram bio in 24 hours.'*
Q5: 'Who are you and where are you based?'	**YOUR WINNING ANSWER:** *'I'm Subhash, Founder of VALIXIS Technologies. We are an AI software engineering studio based right here in AP/Telangana. You can review our full verified company docs, live builds, and client architecture at https://valixis.github.io/company-docs/.'*
Q6: 'How long does it take to go live?'	**YOUR WINNING ANSWER:** *'Fast. Because we have our pre-engineered modules ready, we can have your custom menu or booking schedule live with your branding and UPI QR code in just 48 to 72 hours.'*
Q7: 'We don't have the budget right now.'	**YOUR WINNING ANSWER:** *'I completely respect that! That's why we don't charge any monthly retainer fees or locked-in contracts. It's just a one-time ■9,999 setup, and we even offer a 50% split—■4,999 to start and the rest only after you test it and are 100% happy. Fair enough?'*

3. NO-BRAINER PRICING ARCHITECTURE (ACCESSIBLE & EASY TO SAY YES)

Designed so local business owners and seed startups can make a decision on the spot without budget resistance.

Tier 1: Starter Portal 'Quick Win'	Local Cafes, Bakeries, Single Dental/Skin Clinic	**■9,999** **(One-Time)**	• 1-Click UPI direct ordering / booking web app • Instant WhatsApp order confirmation alerts • QR code stickers for dine-in tables / reception	50% Advance (■5k) 50% on Launch

4. BEST CALL TIMINGS TO CATCH OWNERS AT THEIR DESK

Cafes & Restaurants: Call between **3:30 PM – 5:30 PM**. Lunch rush is over, evening rush hasn't started, and managers/owners are at the counter reviewing sales.	**Clinics (Dental & Skin):** Call between **1:30 PM – 3:30 PM**. Morning consultations have wrapped up, doctors are between patient shifts or checking their phones.	**Tech Startups & Agencies:** Call between **11:00 AM – 1:00 PM** or **5:00 PM – 6:30 PM**. Founders are at their laptops and actively triaging operational tasks.
