1. EXECUTIVE INTRODUCTION & THE VALIXIS ADVANTAGE

VALIXIS Technologies is an elite technology enterprise operating at the intersection of high-converting web engineering, automated operational workflows, and interactive digital experiences. Unlike traditional agencies that sell bloated WordPress templates that load slowly and fail to convert visitors, Valixis engineers custom, mobile-first web applications built for speed (Google Lighthouse 90+), direct revenue generation, and seamless integration with day-to-day business operations.

Whether you are a specialty cafe looking to eliminate 25% aggregator cuts, a premier clinic automating 24/7 patient booking, or a high-growth startup shipping software features in 30 days, Valixis provides end-to-end engineering pods with clear, predictable deliverables.

2. THE SIX CORE SERVICE PILLARS (OVERVIEW)

Service Pillar	Target Audience	Core Business Problem Solved	Key Technical Solution
1. Direct F&B; Ordering & KDS	Cafes, Bakeries, QSRs, Roasteries	Losing 22%-28% to Swiggy/Zomato; zero customer data ownership.	1-click UPI direct ordering; instant WhatsApp Kitchen Display dispatch.
2. 24/7 Clinic Booking Portals	Dental, Skin, Aesthetic, Wellness	Missed after-hours inquiries; high 30%-40% patient no-show rates.	Automated slot booking with instant WhatsApp reminders & confirmations.
3. 3D Hospitality & Dining	Luxury Dining, Mandi, Resorts	Empty banquet spaces; high OTA commissions (Booking.com/MMT).	Interactive 3D virtual tour, platter customizer & direct banquet booking.
4. Startup Dedicated Dev Pod	SaaS, Funded Tech Startups	3-6 months and ■20L+ wasted hiring full-time in-house devs.	7-member external engineering pod shipping MVPs & features in 30-45 days.
5. Web Speed & Conversion Revamp	Outdated Local Businesses	High bounce rates from slow 7-second WordPress/Wix sites.	Clean modern rebuild with 90+ Lighthouse score and 1-second load times.
6. Managed Cloud Care & SLA	All Active Business Clients	Unexpected server crashes, domain expirations, out-of-date menus.	Cloudflare CDN hosting, SSL, uptime monitoring, and priority updates.

3. COMMERCIAL NOTES & REVENUE-SHARE EXPLANATION

- **The Pilot Cohort Incentive:** Pilot rates are strictly reserved for early flagship clients who agree to provide a video testimonial, live case study showcase rights, and sign within seven (7) days of proposal presentation.
- **The 1.5% GMV Direct Share:** Applicable strictly to online transactions processed directly through the custom web portal. In-store cash or third-party aggregator orders carry zero fee. Collected either via automated gateway split (Razorpay Route) or monthly reconciliation.
- **Statutory Taxes:** All figures are quoted in Indian Rupees (INR) or US Dollars (USD) net of applicable statutory GST / taxes.

MASTER ENGAGEMENT TERMS & LEGAL GUARDRAILS

Standard Legalities, Milestone Framework, Zero-Custody Rule & Execution Block

4. MASTER TERMS OF ENGAGEMENT

4.1 Exhaustive Specifications: The contracted scope of services is limited strictly to the modules selected in Section 3 above. Any additional features, structural pivots, or integrations requested during or post-development constitute out-of-scope work, billed at Valixis's standard rate of **■2,500 / $45 per engineer-hour**.

4.2 Milestone Payment Structure: For standard projects, fees follow the 50-30-20 framework (50% upfront mobilization, 30% on staging demo approval, 20% prior to live DNS cutover). For pilot cohort builds (■15k-■25k), fees are structured as 50% mobilization deposit on Day 1 and 50% upon live domain deployment. Work commences solely upon cleared receipt of Milestone 1.

4.3 Client Asset Delay Clause (7-Day Rule): Client shall deliver all brand assets (logos, photography, menu prices, payment gateway keys, DNS access) within seven (7) business days. Any delay by Client automatically extends the target delivery deadline by the same duration. If delays exceed thirty (30) days, Valixis may invoice for completed milestones and pause work.

4.4 Revision Policy: Client is entitled to one (1) consolidated written round of feedback during pilot builds (or two rounds for standard builds). Consolidated feedback must be provided by the designated Single Point of Contact (SPOC).

4.5 Conditional IP Ownership Transfer: Valixis assigns all bespoke design graphics, customized styling, and branding assets to Client strictly upon receipt of **100% full and final payment**. Valixis retains sole ownership over its pre-existing code libraries, developer tools, algorithms, 3D shaders, and reusable boilerplates, granting Client a perpetual, royalty-free license for live operational use.

4.6 Zero Custody of Funds: All customer payment gateways (Razorpay, Cashfree, PhonePe, or UPI VPA) must be owned and KYC-verified directly in Client's name. **Valixis acts solely as a technical software integrator and at no point holds, custodies, or processes customer funds.**

4.7 30-Day Bug-Fix Warranty & Liability Ceiling: Valixis provides a complimentary thirty (30) day warranty starting from live launch to resolve any coding defects inconsistent with agreed specifications. To the maximum extent permitted by law, Valixis's total aggregate liability arising out of this engagement shall not exceed the total fees actually received from Client.

4.8 Kill Fee & Cancellation: The initial 50% mobilization deposit is non-refundable as liquidated damages for committed engineering capacity. If Client terminates for convenience, Client must settle all unbilled work completed to date.

4.9 Governing Law & Jurisdiction: This engagement is governed by the laws of India, with exclusive jurisdiction in the courts of **Hyderabad, Telangana**.

5. FORMAL ACCEPTANCE & EXECUTION
