VALIXIS

AI SERVICE NAME	WHAT IT DOES FOR YOUR RESTAURANT
1. DinoBot 24/7 Priority Queue & Table Agent `WhatsApp · Telugu & English`	Autonomously engages incoming WhatsApp inquiries 24/7. During peak rush hours (6:30 PM – 10:30 PM), the system **issues structured VIP Priority Queue passes** rather than holding empty tables, ensuring waitstaff can seat waiting diners immediately without floor conflict. ✓ **Recovers 8–12 walkaway dining parties during peak queues (~₹35,000–₹45,000/mo)**
2. Missed-Call Recapture Instant Automated Inbound Lead Agent `Telephony & WhatsApp API`	During peak dinner hours when staff cannot answer ringing phones, the system detects missed calls and **dispatches an automated WhatsApp booking prompt within 10 seconds**: *"Hi! We noticed we missed your call. Would you like to secure a priority table tonight?"* ✓ **Recovers 4–6 lost table bookings every weekend (~₹25,000/mo)**
3. Smart 5-Star Review Shield Table QR Sentiment & Google SEO Engine `Table QR + Private Escalation`	Customers scan a table QR stand. **Happy diners (4–5 stars) are routed directly to Google Maps** with pre-populated praise tags. **Unhappy diners (1–3 stars) are intercepted privately**, bypassing Google and sending an urgent WhatsApp alert to the Manager's phone to resolve the complaint before the diner leaves. ✓ **Attracts 15–20 high-value group walk-ins via #1 Google Maps rank (~₹35,000–₹50,000/mo)**
4. Telugu Voice Expense Logger Voice-to-Spreadsheet Financial Ledger `Private WhatsApp Bot`	The owner sends a casual voice note in Telugu or English (e.g., *"Srinivas ki mutton kosam 4,500 cash ichanu"*). Speech-to-text AI extracts the vendor, expense category, amount, and payment mode, **logging it into a structured accounting ledger in 2 seconds**. ✓ **Plugs unrecorded cash & vendor leaks (~₹10,000–₹18,000/mo) + saves 15 hrs bookkeeping**
5. Morning Executive Briefing Daily Automated Performance Digest `Nightly Petpooja EOD Sync`	The automation reads Petpooja's automated 11:30 PM closing email report. At 9:00 AM sharp, it delivers a **concise executive briefing to the owner's WhatsApp** detailing yesterday's total revenue, cash vs. UPI breakdown, table count, and top 3 best-selling Mandi platters. ✓ **Catches daily cash drawer & UPI shortages immediately (~₹8,000–₹12,000/mo saved)**

Operational Guarantee: Zero Floor Disruption

None of these systems require table waiters or kitchen cooks to adopt new apps or change their work habits. All workflows operate silently through WhatsApp Cloud API and Petpooja's automated email reporting.
